**Subject:** Offense Table Review 2

All,

Here is the spreadsheet for review of the second 100+ Penal Codes. This one is a little larger than the last, but close to half of the offenses are up for removal. Same instructions as before: use Column B 'Group Notes' to indicate your response, offer any proposed changes to the Short/Long Literals, and check whether the offenses have any indicators (from Serious to Death). As noted in the last round, the Firearms Prohibition 'Lifetime Ban' has been taken care of for you since it is dependent on TOC, but still make sure to check those Misdemeanors that may have a firearms prohibition.

Because of the Thanksgiving holiday, the due date for the 2nd Review will not be until December 7th (12/17/18).

I have received and input most of the 1st Reviews. Please make sure to email me your completed 1st review if you have not done so already. Once all have been received, I will send out a summary of the data collected, as well as any conflicting issues that need further resolution; there are a few as it stands right now, but that is mostly contained to Allegation table vs Offense table issues.

If you have any questions on the review process, or want to discuss an individual code, please feel free to discuss with me by calling me directly or by email.
